Exploring the Ethical Implications of AI in Healthcare

Bui Tung 10:37
100 dien

Objective:
The objective of this assignment is to critically examine the ethical implications of artificial intelligence (AI) applications in the field of healthcare. Through this assignment, you will explore various ethical issues, potential biases, privacy concerns, and societal impacts associated with the integration of AI technologies in healthcare systems.

Task:

Literature Review:
Conduct a literature review to gather information on the current state of AI applications in healthcare, including diagnostic tools, treatment planning, patient monitoring, and administrative tasks. Identify at least three scholarly articles that discuss the ethical considerations related to these AI applications.

Case Study Analysis:
Choose a real-world case study where AI technology was implemented in healthcare. Analyze the case study from an ethical perspective, considering issues such as data privacy, patient autonomy, fairness, accountability, and transparency. Provide a detailed evaluation of the ethical challenges faced in the implementation of AI in the selected case study.

Ethical Framework Application:
Select an ethical framework (utilitarianism, deontology, virtue ethics) and apply it to the ethical issues identified in the case study. Discuss how the chosen ethical framework informs decision-making and guides ethical behavior in the context of AI-driven healthcare.

Discussion and Reflection:
Reflect on your findings from the literature review and case study analysis. Discuss your own perspectives on the ethical implications of AI in healthcare. Consider questions such as:

What are the potential benefits and risks of using AI in healthcare?
How can we ensure that AI algorithms are fair and unbiased?
What measures should be implemented to protect patient privacy in AI-driven healthcare systems?
What role should healthcare professionals, policymakers, and technology developers play in addressing ethical concerns related to AI in healthcare?

User Profile Page

Edit User Profile Page

The screenshot shows a user interface with a sidebar on the left containing 'J2YB Class' and 'AI Class' sections. A modal titled 'Edit profile' is open in the center. The modal includes a 'Profile photo' section with an upload button and instructions. Below this are input fields for 'Full name' (containing 'Emily'), 'Email' (containing 'emily@gmail.com'), 'Location' (a dropdown menu), and 'Phone Number' (containing '113'). At the bottom of the modal are 'Cancel' and 'Save profile' buttons.

Meeting Page

The screenshot displays a meeting scheduling interface. On the left is a calendar grid with time slots from 08:00 AM to 03:00 PM. Existing meetings include 'Project Kickoff' (08:00 - 09:00 AM), 'Happy Hour' (11:00 - 12:00 PM), and two 'One-on-one' sessions (01:00 - 02:00 PM and 02:00 - 03:00 PM). A '+ Add meeting' button is visible. On the right, an 'Add Meeting' modal form is open, containing fields for Meeting Name, Date (Tue, Jul 18), Time (09:00 - 09:30 AM), Location (Room 01), and Online Link (Link.com). It also lists invitees Emily Taylor and Jennifer Scott, and includes 'Advanced settings' and a 'Save' button.
